Mr. [redacted]
Radio Monitoring Station
[redacted]

Subject: HARDWARE

25X1A9a

Dear Mr. [redacted]:

25X1A5a1

We quote the following letter dated January 21
from [redacted]:

"This is to certify that all of the finished hardware I
propose to furnish on the above job will meet government
specifications as shown in Federal Specifications FF-P-101b,
FF-H-106a, FF-H-111a, FF-H-116a and FF-H-121a.

"I have letters in my file from all of the intended suppli-
ers guaranteeing this.

"The locks are to be manufactured by the Schlage Lock
Company with the exposed knobs and trim of solid aluminum.
This finish is anodized and will not rub off or tarnish.
The butts are primed coated as specified and of the guage
metal as shown in specification FF-H-116a. The push bars
and kick plates, door stops, holder, etc. will be of solid
aluminum where possible, otherwise they will be of solid
brass or bronze, dull chrome plated. The door closer and
floor hinges are as specified.

25X1A5a1

[redacted]
Yours very truly,

25X1A5a1
